Dear Mr. Faranca:

Please find enclosed a remedial investigation work plan (RIWP) for Site 116 (Standard Chlorine). The RIWP includes a health and safety plan (HASp), equipment decontamination plan (EDP), standard investigative procedures plan (SIPP), and a quality assurance project plan (QAPP) as appendices. Due to its voluminous nature, the QAPP has been bound separately. Aerial photos are provided as an attachment.

If you have any questions with respect to this work plan, please feel free to contact Dave Rabbe at (732) 246-5848 or myself at (972) 691-8338.

Very truly yours,

  
Mark Harris, Ph.D.  
Chemical Land Holdings, Inc.  
On behalf of Occidental Chemical Corporation  
(as successor to Diamond Shamrock Chemicals Company)
